The popular conception of Hume may be said to remain exactly what it was in his own day; nor indeed is this to be wondered at, since the whole subject lies within a region into which the thought of the multitude has never yet penetrated. The more legitimate cause of surprise is to be found in the fact, that by some of our leading physicists, not excepting even Professor Huxley, who profess to take Hume for their master, and have revived and rehabilitated his philosophy that they may justify by it their scepticism in religion, the real nature of his achievement appears to be so absolutely ignored, that they can scarcely be said to have come in sight of the problem which Hume laboured to solve, much less to have discerned the significance of the result to which his uncompromising dialectics led him. The complacent appeal to his sceptical philosophy, to vindicate the erection of physical science on the ruins of theological belief, reminds us of nothing so much as of Hogarth s rustic politician, sitting astride of the sign of the Crown, and eagerly sawing through the beam which supports both it and him, in blissful unconsciousness that the issue of his endeavour must inevitably be the cracking of his own crown, as well as the fall of the symbol against which his seditious antipathy is directed. It is this remarkable failure to detect the direction direction and force of the stroke...
