*This publication will never be straightforward to get going on looking at but really fun to see. This can be for all those who statte that there had not been a worth looking at. You wont really feel monotony at at any moment of your own time (that's what catalogs are for about should you request me).

This long-time best-seller uses a thematic, rather than country-by-country, approach to the region in an analysis that is at once comprehensive and, at the same time, does not underestimate the intelligence of the college audience. The authors wrote this book because there were no introductory texts taking a holistic perspective on the region. This book employs a multidisciplinary approach (political science, economics, history, anthropology) to explain the current political dynamics of the region. It avoids a country-by-country approach in favor of a thematic approach that integrates regional experiences into a whole. Major themes include political development, economic development, international relations, Islam - mainstream and jihadist, colonialism and post-colonialism; and recent political changes, with particular emphasis on the U.S. intervention in Iraq and the rising interest in democracy regionally. 363 pp. Englisch.
